The objective of the seminar is to focus APEC government policy and business initiatives to maximise the benefits from electronic commerce in trade and transport.

To achieve this a range of presentations and open discussion sessions have been set up around the following issues;

- APEC's ongoing action plan for electronic commerce
- Looking at successful applications of electronic commerce in transport and trade
- Paperless trading - Making it happen!
- Business friendly policy settings for electronic commerce
- Dealing with current and future intelligent transport systems and electronic commerce technology

To be held in conjunction with the 15th meeting

of the APEC Transportation Working Group

• There is no cost to attend the seminar

• The seminar is about producing meaningful solutions for the various stakeholders of electronic commerce in APEC member countries. It is expected that delegates to the seminar would include government officers making decisions on electronic commerce, transport industry users and providers of electronic commerce services to government and industry.
